# We Connect registration in the app using an activation code

This is how to get mobile online services in your Volkswagen.

---

## Dear Driver,

Here you can find out the steps you need to follow to use We Connect.

However, this brochure does not describe all functions and therefore is not a suitable replacement for the service wallet belonging to the vehicle with many important explanations and warnings.

You can find frequently asked questions on We Connect on the Volkswagen We Connect website [www.connect.volkswagen-we.com](http://www.connect.volkswagen-we.com) under the menu option 'Help/FAQ'.

# Conditions.

---

As well as the conclusion of a separate agreement with Volkswagen AG, use of We Connect requires equipment with a We Connect-ready navigation system. Please note that only the owner, keeper or users of the vehicle who are not only temporarily authorised (lessees, company car users, etc.) may activate the mobile online services and be authenticated as the primary user. If the vehicle already has a primary user, they are removed when a new primary user is authenticated.

The availability of the We Connect services and their conditions may differ according to the vehicle and state. You can find more details on We Connect at **[www.connect.volkswagen-we.com](http://www.connect.volkswagen-we.com)** and your Volkswagen dealership.

\*To use the We Connect services, you need a Volkswagen ID user account and to log in to We Connect with your username and password. A separate We Connect or We Connect Plus contract for the use of mobile online services must also be concluded with Volkswagen AG. On initial order of We Connect Plus for a new vehicle, you have 90 days following delivery of the vehicle to conclude the We Connect contract for the vehicle at [www.portal.volkswagen-we.com](http://www.portal.volkswagen-we.com) (initial order period). Otherwise, a free initial contract period offered for We Connect Plus is reduced by the number of days between the end of the initial order period and the actual conclusion of the contract.

The use of We Connect mobile online services is enabled by means of an integrated internet connection. Volkswagen AG will be liable for the associated data costs incurred within the EU, with the exception of the 'Streaming & Internet' services. For the use of the "Streaming & Internet" services and for the Wi-Fi hotspot, data packages can be purchased from Cubic Telecom, our mobile communications partner, and used in the network coverage area within many European countries. You can find information on prices and supported countries at <https://vw.cubictelcom.com>. Alternatively, you can use the Internet Radio, Hybrid Radio and media streaming services with a mobile device (e.g. smartphone), provided it has the ability to function as a mobile Wi-Fi hotspot. In this case, the corresponding services are only available subject to an existing or separate mobile phone contract between you and your mobile network operator and only within the coverage area of the respective mobile network. Additional fees (for example, roaming charges) may arise when receiving data from the internet, depending on your particular mobile phone rate and especially when using the service abroad.

A smartphone with a suitable iOS or Android operating system and SIM card with data option with a mobile data contract already in existence or to be agreed separately between you and your mobile data provider is required to use the free We Connect app. A smartphone compatibility overview can be found at [www.connect.volkswagen-we.com](http://www.connect.volkswagen-we.com). For information on mobile data charges, please consult your mobile data provider.

The availability of the individual We Connect and We Connect Plus services described in the packages may differ between states. These services are available for the agreed contract period. You can find more details at [www.connect.volkswagen-we.com](http://www.connect.volkswagen-we.com) and your Volkswagen dealership.
